III. PRELIMINARY APPLICATION DATES AND PLACE

All applications will be received on <http://www.trabzon.edu.tr> between **July 15 – August 9, 2024**.

IV. EVALUATION OF PRELIMINARY APPLICATIONS

Admission, placement and rejection decisions are entirely under the authority of Trabzon University. Trabzon University is free to fill or not fill the quotas. Fulfilling the application requirements does not guarantee admission.

The results will be announced on **August 28, 2024** (at 23.59 at the latest) at <http://www.trabzon.edu.tr/>. An

individual result document will not be sent to the candidates.

Evaluation Criteria:

- (1) Applications of candidates who do not meet the application requirements will not be evaluated.
- (2) Evaluation and placement of applications are carried out by the Commission (Foreign Student Admission Commission (YUÖKK)) established by the Rector.
- (3) Candidates can make a maximum of five choices from the announced quotas, which they have the right to apply for and indicate their order.
- (4) The commission calculates the placement score by converting the scores of the exams in Annex Table 1 into a 100-point system. Placement scores are ranked from highest to lowest. In case of equality in placement scores, the candidate with the closest high school graduation date is first taken into consideration, and if there is still an equality, the candidate whose age is younger is taken into consideration.

In the placement process, firstly, international candidates are accepted according to their TR-YÖS results, which has been conducted by OSYM (Student Selection and Placement Centre) since 2023.

(5) Firstly, in case there are vacancies after placements made with the TR-YÖS score, the candidates will be evaluated based on the standardized scores they have obtained from equivalent exams (such as ABITUR, TQDK, SAT, ACT, GAOKAO, GCE AL, etc.) that have national and international validity as high school graduation and/or university entrance exams in other countries, or according to the equivalent exam scores converted into the hundred (100) system. The candidates will then be placed in a single program as main and reserve candidates according to their preference ranking within the quota.

(6) In case there are still vacancies, candidates will be placed based on their secondary education (high school) graduation scores.

(7) The number of candidates accepted into a program from the same country cannot exceed 20% of the available quota for that program. If there are no applications or if the quota is not filled for the allocated country/countries, the country limit will not be applied, and the unfilled quotas can be transferred to the quotas of other countries, or the country quotas can be removed, and the placement process will be carried out accordingly.

(8) For applications to the quotas for international students determined by YÖK in the Teaching and Law programs, specifically for these programs, candidates who were born Turkish citizens but lost their Turkish citizenship by obtaining permission from the Ministry of Interior in accordance with the Turkish Citizenship Law, candidates who document that they hold a blue card given to those who lost their Turkish citizenship upon their request, and dual nationals with one Turkish citizenship who completed their high school education abroad (except for the TRNC) and candidates with Turkish citizenship, at most 10% of the international student acceptance quota in these fields can be used.

(9) The final registrations of foreign students admitted to Trabzon University will be carried out by the Student Affairs Department on the specified dates. If the quotas are not filled after the completion of the final registration process (due to non-registration, vacant spots, or cancellations), then:

- a) Among the existing applications, candidates who have not been placed in any program may be reassigned according to the reserve order.
- b) The country limit will not be applied.

The evaluation and placement of candidates will be carried out by the Commission established in the Rectorate's Student Affairs Department where they applied.

Candidates can make up to five preferences, indicating their ranking, from the announced quotas they are eligible to apply for.

The number of candidates accepted into a faculty, school, conservatory, or vocational school from the same country will be placed in such a way that it does not exceed 20% of the total quota of the programs affiliated with that faculty, school, conservatory, or vocational school. If there are no applications or if the quota is not filled for the allocated country/countries, the unfilled quotas can be transferred to the quotas of other countries, or the country quotas can be removed, and the placement process will be carried out accordingly.

The evaluation and placement of candidates applying to programs that admit students through a special talent exam will be carried out according to the university's own principles and procedures on the dates determined by the
